Merimbula

Merimbula is situated midway between Melbourne and Sydney and is the jewel of the Sapphire Coast with its modern facilities, airport, fine clubs, restaurants and beautiful beaches.

It offers everything for the fisherman and family. Fishing is a year round experience in Merimbula but when the warm eastern seaboard current moves down the coast from late Spring onwards, things really get going. The bigger pelagics move in chasing the bait fish and it's all hands on deck.
